

UHC Survey Year 2
In-Patient and Out-Patient Survey Questionnaire

Informed Consent Form

This informed consent form is to be obtained before conducting the interview. You must read this entire consent form aloud exactly as written. After you have read this form to the respondent, you must complete and sign the verification consent form.

PART I: Information about the Study

Hello, my name is (data collector's name) . I work for Asian Social Project Services, Inc. (ASPSI). I am here to ask you to participate in a study about the Universal Health Care (UHC) and packages of programs like ***Yaman ng Kalusugan Program (YAKAP)***, ***No Balance Billing (NBB)***, ***Zero Balance Billing (ZBB)***, ***Bagong Urgent Care and Ambulatory Services (BUCAS)*** centers, and ***Guaranteed and Accessible Medications for Outpatient Treatment (GAMOT)***. The Department of Health (DOH) funded this study. Please let me tell you more about the study.

This study aims to generate evidence on the overall experience of the general public to support continuous monitoring, evaluation, and learning of the implementation of the UHC Act and its Implementing Rules and Regulations (IRR).

Would you like to participate as a respondent in the study? The interview may last for more or less than an hour.

We are committed to protecting your privacy. If you choose to participate, we will never share your family's or other household members' personal information outside of the study team. We will never include your name in information shared with the government or in any reports. Your name will be kept separately from your answers in a private, secure location. For this interview, it is also important to respect other people's privacy and not tell anyone else what we talked about today. With all research, there's a small chance that someone else might get to see your data. We try our best to prevent that, but if it happens, we'll tell you as soon as possible.

Aside from this, there are no other risks to you if you take part in this study. As a benefit of the research, the knowledge gained may help the government and DOH better support your healthcare needs. We shall also provide Php 100 as a token of appreciation for the time you've shared with us.

Nothing bad will happen if you do not want to be in this study. You can decide to stop being in the study at any time. You will never have to pay anything to be in the study.

Do you have any questions about the study or about what I have told you?

If you have concerns or questions about your rights as a participant, you can contact:
